PROJECTS

Comic Store – E-Commerce Web Application

<https://rajcumarnaredla.github.io/Comic-store/comic%20store/>

- Developed a responsive e-commerce web application using HTML, CSS, and JavaScript
- Designed dynamic product display and user-friendly interface
- Applied problem-solving skills to improve usability and performance
- Focused on delivering a seamless user experience

Open Meteo Weather Dashboard

A complete ReactJS weather dashboard website built with Vite. The app uses the browser geolocation API to detect the user's location on load, then fetches current, forecast, air-quality, and historical weather insights from Open-Meteo APIs.

<https://weather-report-murex-seven.vercel.app/historical-weather>

- Responsive dashboard website with React Router navigation.
- Current Weather Dashboard with metric cards and hourly ApexCharts.
- Historical Weather Dashboard with date-range filtering up to 2 years.

Stealthy Security – Multiple Image Steganography System

- Developed a secure data hiding system by embedding sensitive data across multiple images
- Improved confidentiality and reduced detectability of hidden information
- Demonstrated analytical thinking and innovative problem-solving

SOFT SKILLS

- Strong problem-solving and logical thinking
- Basic understanding of business processes and requirements
- Analytical thinking and data interpretation
- Effective communication and teamwork
- Adaptability and quick learning ability
